Product Description

Extruded Acrylic Sheet

Our Product Introduction

for more products please visit us on perfectplastic8.com

Extruded Acrylic Sheet is an affordable option that many people use for its convenience, extruded exclusive colors, and the opportunity to save money. It is uniquely made with a process involving rollers. The liquid is moved through the rollers to add texture after heating process. Over time, the sheet is formed.

Advantages

This kind of acrylic sheets are favored because of their low price. Good surface hardness, large plasticity. Good toughness and not easy to break. Extruded acrylic also have a high level of clarity and are considered to be fairly durable. Extruded acrylic sheet can be used for laser cutting.
