## Product Description

### Acrylic Signage Mini Letter:

Mini letter, also known as polymer light-emitting word, as in the past two years new luminous word products, all imported acrylic polymer materials, with beautiful shape, small, noble, fashion and characteristics of luminous uniform, loved by customers, and at the same time in the rise of occupy the market quickly, to become a member of the photoelectric identification of potential.

Signage mini letter are widely used in publicity, advertising, trademarks, slogans, blackboard newspapers, enterprise names, venue layout, exhibition, as well as commodity packaging and decoration, all kinds of advertising, newspapers, magazines and books, etc., are more and more popular.

Each product will have a separate package, can be customized packaging, support customer customization.

### The Main Features Are:

1. Evenness: After the encrypted LED light passes through the polymer colored acrylic board, the light will be fully dispersed and evenly without black spots.
2. Gentle: the light through the polymer acrylic panel, will be dispersed evenly, so there is no need to worry about direct lighting caused by dazzling problems.
3. Energy Saving: Light emitting diode (LED) is used as the light source, and the power consumption of each light point is only 0.1W
4. High Efficiency: it can make the most effective use of light efficiency through reasonable arrangement of light points and diffuse on acrylic surface.
5. Longevity: In addition to the super long life of 100,000-200,000 hours of LED, the imported acrylic also has a super long life of 8-10 years.
6. Environmental Protection: long-term use will not produce harmful gases.
7. Form: it is very changeable, and the film color can be changed as the designer likes, so as to change brightness, color and pattern.

The manufacturing process consists of panel, base plate and LED light emitting lamp.

The face plate by the high polymer acrylic board through the engraving machine oblique cut, the formation of three-dimensional inclined surface, and then carved out.

The bottom plate is laser-cut acrylic plate and can be loaded with LED lamp.

Finish with organic glue.

1. High quality and competitive price.
2. Fastest production and timely lead time.
3. Providing best service.

We go to different countries every year to participate in the exhibition especially Dubai, we have dealers in India, Dubai and other areas.
