Product Description

Clear Circle Acrylic Sheet 20mm Thickness Transparent Acrylic Sheet For DIY Projects

Clear Cast Acrylic Sheet

Acrylic material is renowned for its high transparency, with a light transmittance of up to 92%, and thus is hailed as "plastic crystal". In addition, acrylic also has outstanding weather resistance, especially suitable for outdoor environments, and stands out among many plastic materials. Meanwhile, the surface hardness and gloss of acrylic are excellent, and it has extremely high plasticity. It can be processed into various complex-shaped products to meet different needs. In addition, acrylic sheets come in a wide variety of types and colors, covering semi-transparent color series, and can still maintain high transparency even when they are relatively thick.

Specifications:
