Colored Cast Acrylic Sheet For Gallery Exhibits

Our 18mm colored acrylic sheet is an art gallery exhibit-grade panel with a fine matte finish, ideal for diverse art display fabrication and exhibition showcase applications. It features a soft, uniform color surface that is easy to carve, polish, laser-cut and assemble, perfect for crafting art gallery exhibit stands, painting display frames, sculpture showcase bases and art exhibition hall decorative backdrops. Ideal for custom artwork display platforms, high-end painting exhibit units, art fair showcase fixtures and gallery window display props, this sheet pairs elegant colored aesthetics with professional exhibit-grade performance. Lighter than glass and more shatterproof than conventional plastic, it enables effortless on-site layout and installation while retaining excellent scratch resistance, color fastness and protection against indoor light exposure fluctuations and minor physical collisions in art exhibition scenarios.

Specifications

Scratch-Proof & Shatter-Resistant

- Avoid rough abrasive tools and sharp hard objects in contact with the scratch-proof colored acrylic sheet, as these may cause micro-scratches, surface abrasions and permanent mark lefts, compromising its scratch-resistant performance.
- Do not subject the shatter-resistant colored acrylic sheet to violent collision, hard impact during on-site layout, or long-term heavy pressure on its edges, as these may cause hidden cracks, corner breakage and structural deformation.

Key Features

- Shatter Resistant
- Scratch Proof
- Lightweight & Shatterproof
- Easy Processability
- Lightweight Design
- Smooth Surface Finish
- Easy Polishing Finish
