## Colored Cast Acrylic Sheet For Device Casings

Our colored acrylic sheet is a high-performance premium panel engineered exclusively for electronic device casing applications, delivering vivid, consistent color performance and sturdy structural stability that meets the strict dustproof requirements of electronic product manufacturing. It features a dense, dust-repellent surface that is easy to cut, drill, precision shape and assemble, perfect for crafting casings of household electronic appliances, industrial control equipment housings, smart device outer shells, electronic instrument enclosures and small digital product protective casings. Ideal for TV back covers, router casings, smart speaker outer shells, industrial sensor enclosures, digital camera protective casings and small household appliance housings, this 20mm thick sheet combines eye-catching colored aesthetics with professional-grade dustproof performance and structural rigidity. More dust-resistant than standard acrylic panels and more shatterproof than ordinary plastic casings, it enables reliable long-term use for electronic device casings while retaining excellent color fastness, dust and scratch resistance, and full protection against dust accumulation, minor physical collisions, daily wear and tear and slight environmental moisture in all electronic device casing fabrication scenarios.

### Dustproof & Shatterproof

- Avoid exposing the dustproof surface to heavy dust/grit environments for long periods; cover the sheet with a sealed protective film during storage/transport and keep it away from dusty construction areas or industrial workshops before installation.
- Do not subject the shatterproof acrylic sheet to violent impact, heavy object collision or forced bending without support, as these may cause internal damage, surface chipping and edge cracking, compromising its shatterproof performance and structural integrity.

### Key Features

- Shatterproof
- Scratch-Resistant
- Dustproof
- Structural Rigid
- Wear-Resistant
- Impact-Resistant
- Assemble-Friendly
