## Clear Frosted Acrylic Sheet For Exhibition Stands

Our clear frosted acrylic sheet features a soft, even matte finish with high light transmittance and gentle light diffusion, creating a clean and high-end visual effect for exhibition stands. It offers excellent surface hardness, good impact resistance and stable dimensional stability, ensuring long-term use without warping or cracking in various exhibition environments. Lightweight yet high-strength, it is safer and easier to handle and install than glass, effectively reducing the overall weight of exhibition structures. With outstanding scratch resistance and easy maintenance, it resists daily scratches, fingerprints and dust, keeping a neat and professional appearance during exhibitions. It supports precise cutting, bending, polishing and custom processing, available in custom sizes, thicknesses and finishes to meet diverse exhibition stand design requirements. Widely used in exhibition backdrops, display panels, signage, partitions and decorative structures, it is an ideal material.

Sample	Available

### Shatterproof & Scratch Resistant

Clean the clear frosted acrylic sheet with a soft microfiber cloth to avoid scratches and maintain its shatterproof performance. Handle and install gently to protect the panel integrity and ensure long-term shatterproof safety in daily use.

During storage of the clear frosted acrylic sheet, avoid sharp contact, hard friction or messy stacking on its surface, as improper handling may cause scratches, marks or surface impairment.

### Key Features

**Shatterproof**

**Impact Resistance**

**Lightweight**

**Scratch Resistance**

**High Surface Hardness**

**Easy to Maintenance**
