Product Description

Meta Description

Our acrylic sheet sound-insulation board offers outstanding noise reduction performance for studio and music room use. It features high density, stable structure, and excellent sound absorption effect, effectively isolating external noise and ensuring a quiet indoor environment. The material is durable, impact-resistant, and not easy to deform, with uniform color and smooth surface. It is widely used in recording studios, music rooms, private studios, and audio-visual spaces, helping to create a professional, comfortable, and interference-free acoustic environment for music creation, recording, and practice.

Why Choose Our 20mm Colored Acrylic Sheet?

High Strength: 20mm thick panel delivers outstanding rigidity and durability, resistant to impact and not easy to crack or deform in daily use.

Easy to Fabricate: Good processability allows easy cutting, drilling and fixing, suitable for interior wall decoration, sound insulation barriers and partition projects.

Excellent Sound-Insulation Performance: High-density acrylic structure effectively reduces noise transmission, providing a quiet and professional environment for studios and music rooms.

Premium Uniform Color: Colored acrylic with consistent and saturated color, no color difference, enhancing the interior design and aesthetic of music studios.

Frequently Asked Questions

Can you produce according to the samples?

Of course, OEM welcome!

How can I get the sample?

Small samples are available for free, you only need to pay for shipping.

How long can I expect to get the sample?

We prepare samples within 3 days, with delivery typically taking 5-7 days.

What is your MOQ?

Minimum order quantity is 26 pieces for each size.

Do you test all your goods before delivery?

Yes, we have strict quality inspections and provide photos before shipment. Our dedicated R&D team ensures every product meets your requirements.

What is your lead time for mass production?

Normally 25-30 days.

What is your payment term?

We accept T/T, L/C, PayPal, and Western Union.

How do you pack the products?

Each sheet is covered by PE film or craft paper, then palletized in 1.5-ton packages.
