## Product Description

### Meta Description

Boasts consistent color tone, ultra-flat surface and stable hardness in 2-30mm thickness. It features good toughness, scratch resistance and anti-yellowing performance for long service life. Lightweight and sturdy, this colored acrylic panel is easy to cut, drill, polish and bend for professional fabrication. It maintains steady color saturation and gloss, ideal for long-term industrial use. Perfect for signage, advertising panels, equipment baffles, partition boards and general panel fabrication.

### Why Choose Our Colored Acrylic Sheet?

**Durability Performance** : Good toughness and strong scratch resistance, with excellent anti-yellowing and anti-fading ability. Not easy to deform or damage for long-term signage and panel application.

**Material Performance** : Uniform solid color, high gloss finish and ultra-flat surface. Stable hardness and consistent texture, available in 2-30mm full thickness range.

**Structural Advantage** : Dense internal structure, even overall density and stable flatness. No warping, hollowing or surface unevenness after cutting and fabrication.

**Machining Performance** : Easy to cut, drill, polish, bend and thermoform. Lightweight and easy to process for signage, partition and industrial panel fabrication.

### Key Features

Scratch Resistance

Impact Resistance

Lightweight

Weather Resistant
