Product Description

Light Weight Colored Acrylic Sheet Easy Processing

Product Overview

As a wholesale factory specializing in light weight colored acrylic sheets for display stands and light weight colored perspex panels for commercial decoration, we utilize mature cast molding processes to manufacture easy processing colored PMMA sheets. High-quality color masterbatch brings consistent solid hues, eliminating uneven coloring and surface marks on finished panels.

This light weight acrylic material features convenient handling and outstanding processability. It can be easily cut, thermoformed and shaped into diversified finished products. With stable color performance, the colored acrylic sheet meets long-term usage requirements for retail displays, advertising decorations and indoor display facilities.

Key Advantages

Light Weight & Easy Processing

Virgin PMMA blended with qualified color masterbatch produces light weight colored acrylic sheets with stable density and outstanding shaping capacity. The lightweight base lowers transportation load and manual handling difficulty for display and decoration projects.

Convenient Fabrication & Flexible Forming

Light weight colored perspex panels support various machining operations including laser cutting, drilling, thermal bending, polishing and engraving. Materials will not crack or split during thermoforming, allowing manufacturers to make diversified shaped parts.

Stable Physical Properties After Processing

Well-formulated light weight colored PMMA sheets maintain flatness after cutting, hot bending and adhesive assembly. No obvious warping after deep processing, ideal for manufacturing cabinet baffles and decorative panels.

Compatible With Mass Custom Production

Easy-processing light weight colored acrylic sheets adapt to automated processing lines. Consistent material quality guarantees stable processing efficiency, perfectly matching customized production demands.
