

Customizable Color High Light Transmission Anti-Yellowing Cast Acrylic Sheet for Light Box Production

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SM
- Certification: ISO9001:2015,CE, DE,ROHS,REACH etc.
- Model Number: SM583
- Minimum Order Quantity: 2000kgs
- Price: 1-200kg, \$3/kg
- Packaging Details: PE film or Craft Paper
- Delivery Time: 25-30days
- Payment Terms: L/C,T/T,Western Union,Paypal
- Supply Ability: 2000PCS 25-30days

Product Specification

- Material: Acrylic
- Product: Cast Clear Acrylic Sheet
- Raw Material: 100% Virgin MMA
- Model: SM583
- Packing: PE Film Or Craft Paper
- Origin: Zhejiang, China
- Processing Service: Cutting, Moulding
- Color: Customizable
- Light Transmission: High
- Customized: Accept OEM
- Chemical Resistance: Good
- Density: 1.19-1.20g/cm³
- Sample: Available
- Type: Cast Forming
- Highlight: Customizable color acrylic sheet,

Product Description

Colored Clear Acrylic Sheet For Light Box Production

Colored Clear Acrylic Sheet features uniform light diffusion and smooth flat surface optimized for light box illumination. Tinted transparent PMMA panel delivers stable light transmittance with consistent color rendering. Available in multiple transparent shades and customizable sizes for indoor advertising light boxes, backlit signs and luminous display frames. Anti-yellow performance prevents fogging after long-term lighting use, maintaining vivid color and clear lighting effect for commercial lighting display applications.

Specifications

Place of Origin	Zhejiang, China
Brand Name	SM
Material	Acrylic
Size	1220*2440mm, 1220*1830mm and other custom sizes
Thickness	1.8-40mm
Raw Material	Lucite, Mitsubishi, Chinese materials
Grade	AAAAA
MOQ	2TONS
Technology	Cast
Certificate	ISO9001, CE, ROHS, etc.
Color	Any custom colors
Delivery	15-30 days
Density	1.19-1.20g/cm ³
Sample	Available

Key Advantages

Light Uniform Transmission: Virgin tinted PMMA raw material enables balanced light penetration of the colored clear acrylic sheet. Soft and even light output eliminates hot spots for backlit light box display.

Anti-Yellowing Under Continuous Illumination: High-grade colored clear acrylic material withstands long-term light exposure. It avoids turbidity and discoloration, retaining stable tint and clear luminous effect for constant-running light boxes.

Consistent Color Rendering: Colorants are evenly distributed within the PMMA panel. The sheet delivers identical transparency and hue across the whole surface to realize unified luminous display of light boxes.

Excellent Processing Compatibility: The colored clear acrylic sheet supports laser cutting, drilling, edge polishing and thermal forming. Custom thickness and dimensions are available to fit various light box frame structures.

Smooth Flat Surface For Backlight Design: Flawless flat surface reduces light scattering. It works perfectly with light sources to enhance the brightness and saturation of luminous patterns on advertising light boxes.

Frequently Asked Questions

Can you produce according to the samples?

Of course, OEM welcome!

How can I get the sample?

Small samples are available for free, you only need to pay for shipping.

How long can I expect to get the sample?

We prepare samples within 3 days, with delivery typically taking 5-7 days.

What is your MOQ?

Minimum order quantity is 26 pieces for each size.

Do you test all your goods before delivery?

Yes, we have strict quality inspections and provide photos before shipment. Our dedicated R&D team ensures every product meets your requirements.

What is your lead time for mass production?

Normally 25-30 days.

What is your payment term?

We accept T/T, L/C, PayPal, and Western Union.

How do you pack the products?

Each sheet is covered by PE film or craft paper, then palletized in 1.5-ton packages.
