Product Description

UV Resistant Colored Acrylic Sheet For Outdoor Exhibition Booth Projects

Product Overview

As a real manufacturer of UV resistant colored acrylic sheet, we strictly manage raw material selection and full-set production process in-house. Fast turnaround for regular stock specifications. Custom color, thickness and sheet dimensions are available upon client requests. Our export-grade quality fits the demands of Southeast Asia, Middle East, Africa and European outdoor markets.

UV resistant colored acrylic sheet is widely used for outdoor exhibition booth projects, outdoor advertising signs, exterior light box panels, open-air display installations, outdoor furniture parts, exterior decorative claddings, weather-resistant partition panels, retail outdoor shelf fittings and various outdoor commercial and industrial applications.

MOQ	2TONS
Technology	Cast
Certificate	ISO9001, CE, ROHS, etc.
Color	Clear or any custom colors
Delivery	15-30 days
Density	1.20g/cm ³
Sample	Available

Key Advantages

Superior UV & Anti-Aging Performance

Made of virgin PMMA resin and high weather-proof masterbatch, our UV resistant colored acrylic sheet is tailored for outdoor exhibitions. It resists strong sunlight, oxidation and harsh weather, keeping stable luster without fading, yellowing or brittleness for long-term outdoor booth use.

Uniform Full-Body Color & Anti-Fading

With integral coloring technology, the sheet features solid through-body color with zero internal and surface color difference. Weather-resistant pigments avoid color deviation and dullness from long-term outdoor exposure, ensuring consistent display effect for exhibition projects.

Excellent Processability & Easy Installation

This UV resistant acrylic sheet supports laser cutting, engraving, drilling, polishing and bonding. It avoids cracking and chipping during processing, suitable for high-precision production and assembly of outdoor exhibition booths.

High Flatness & Stable Physical Properties

Adopting precision casting and extrusion craft, the sheet delivers high flatness and accurate size tolerance. It features low thermal deformation, strong wind resistance and stable hardness, preventing warping in long-term outdoor display.

Durable & Multi-Scenario Outdoor Use

Featuring outstanding UV resistance, weather resistance, corrosion and dust resistance, the sheet is perfect for outdoor booth panels, display backgrounds, partitions and advertising signs, adapting to various complex outdoor exhibition environments.

Key Features

- UV Resistant
- Weather Resistant
- Anti-Aging
- Corrosion Resistant
- Fade Resistant

Frequently Asked Questions

Can you produce according to the samples?

Of course, OEM welcome!

How can I get the sample?

Small samples are available for free, you only need to pay for shipping.

How long can I expect to get the sample?

We prepare samples within 3 days, with delivery typically taking 5-7 days.

What is your MOQ?

Minimum order quantity is 26 pieces for each size.

Do you test all your goods before delivery?

Yes, we have strict quality inspections and provide photos before shipment. Our dedicated R&D team ensures every product meets your requirements.

What is your lead time for mass production?

Normally 25-30 days.

What is your payment term?

We accept T/T, L/C, PayPal, and Western Union.

How do you pack the products?

Each sheet is covered by PE film or craft paper, then palletized in 1.5-ton packages.
