Product Description

2mm Thin Colored Clear Acrylic Sheet

Colored Clear Acrylic Sheet is a lightweight rigid PMMA panel designed for indoor and outdoor processing. This tinted transparent sheet excels in laser cutting, drilling, bending, and polishing with clean edges. Available in various translucent colors and custom dimensions, it features a smooth surface ideal for bonding and thermoforming. With excellent rigidity and impact resistance to prevent breakage, plus strong weather resistance and anti-yellowing properties, it maintains color stability for long-term use. Widely used for light boxes, retail displays, exhibition booths, and sign making.

Key Advantages

Rigid Stable Structure: High-rigidity 2mm thin colored clear PMMA acrylic board features stable flat shape. The thin sheet resists warping or deformation after processing, maintaining structural stability for light box panels, display facilities and outdoor decorative components.

Consistent Transparent Hue: High-quality colorant evenly blended throughout the 2mm PMMA sheet. Uniform hue and transparency across the entire panel delivers stable visual effects for signage, display panels and decorative parts.

Versatile Machinability: Supports laser cutting, drilling, polishing, hot bending and bonding. Custom thickness and sizes meet diverse indoor and outdoor project requirements.

Long-Lasting Anti-Yellowing: Premium 2mm colored clear PMMA material resists aging and discoloration. Retains bright transparency and stable color for long-term outdoor applications.

Lightweight Thin-Gauge Property: As a 2mm thin-gauge colored clear acrylic sheet, it is lightweight yet structurally solid. Ideal for lightweight displays, light box inner panels and slim-profile craft productions.
