Product Description

Product Overview

The Colored PMMA Frosted Acrylic Sheet (Acryl Matt) is a factory-made rigid PMMA frosted board engineered for privacy partition and screen divider projects. It supports laser cutting, drilling, hot bending, and edge polishing for custom fabrications, with size, color, and thickness customizations available. Its uniform fine frosted matte surface delivers clean laser-cut edges without heavy melting, making it suitable for bulk privacy barrier and custom interior decoration orders.

Product Specifications

MOQ	2 tons
Technology	Cast
Certificate	ISO9001, CE, ROHS, etc.
Color	Any custom colors
Delivery	15–30 days
Density	1.20 g/cm³
Sample	Available

Key Advantages

Privacy-Optimized Matte Texture: This colored PMMA frosted acrylic sheet features a fine, consistent matte frosted finish to block direct line of sight while retaining gentle light transmission. The tailored surface lessens overburning and melting during laser processing, producing tidy cut edges for privacy dividers and decorative screen fabrication.

Balanced Semi-Transparent Shading Performance: Homogeneous frosted treatment forms moderate obscuring effects. It prevents clear direct viewing through the panel without fully blocking ambient light, well suited for office cubicle screens, bathroom dividers and indoor partition installations.

Long-Lasting Color Stability: Made of high-grade PMMA base resin, this colored frosted acrylic panel has outstanding anti-yellowing and fade-resistant performance under indoor lighting. The hue stays uniform for long-term use in interior privacy decoration projects.

Versatile Processing for Partition Customization: The sturdy rigid PMMA sheet supports laser cutting, hole drilling, thermal bending, edge buffing and profile forming. We supply flexible custom sizes, thicknesses and color choices to satisfy different privacy partition layout requirements.

Product Features

- Impact Resistant
- Weather Resistant
- Chemical Resistant
- Easy Fabrication
- Fade Resistant
- Anti-Yellowing

Frequently Asked Questions

Can you produce according to the samples?

Of course, OEM is welcome.

How can I get the sample?

Small samples are available for free; you only need to pay for shipping.

How long can I expect to get the sample?

We prepare samples within 3 days, with delivery typically taking 5–7 days.

What is your MOQ?

The minimum order quantity is 26 pieces for each size.

Do you test all your goods before delivery?

Yes, we have strict quality inspections and provide photos before shipment. Our dedicated R&D team ensures every product meets your requirements.

What is your lead time for mass production?

Normally 25–30 days.

What is your payment term?

We accept T/T, L/C, PayPal, and Western Union.

How do you pack the products?

Each sheet is covered by PE film or craft paper, then palletized in 1.5-ton packages.
